Internship Craftzing Group

Recrudootje Referral Reward Tool

Developed an internal tool to reward successful referrals with personalized surprises, such as wellness days or dinners. Built the web application using Next.js, TypeScript, and Sass.

Integrated DatoCMS with GraphQL for dynamic content management and implemented NextAuth.js for authentication.

Link in Bio Page

Implemented a "link in bio" page within the Craftzing website to eliminate the need for external tools. The page includes dynamic links to social media, specific pages, and Instagram posts that redirect to related blog content. Utilized Next.js, TypeScript, Sass, and DatoCMS with GraphQL for seamless integration.

Spotworkshops

An innovative platform collaborating with 500+ entrepreneurs to offer unique workshops

Redesigned and optimized key pages and components to enhance UI/UX.

Developed reusable components to improved code maintainability,

Migrated the codebase from Vue Options API to Composition API for better performance.

Integrated Inertia.js to streamline data processing and reduce API calls.
